

April 16, 1974

preliminary ruling is that on Select File it requires 25 but I haven't looked at the book today. The Rules do not cover the specific question on Select File. In the absence of a ruling, because of some of the requirements in other like things, the Chair is going to rule that this requires 25 votes. Have you all voted?

SENATOR KELLY: Mr. President, I would request a Call of the House and a record vote on this amendment to the amendment.

PRESIDENT: All right. Everybody has voted so record the vote first.

SENATOR KELLY: I remove my request for the Call but I ask for a record vote.

CLERK: Vote read. See Page 1302, Journal. 25 ayes, 14 nays, 10 not voting.

PRESIDENT: Motion carries. We have some guests in the Chamber. In the North balcony, we have 15 GOP women from Aurora here as guests of Senator Kremer. Also with us, Senator Schmit has asked that we announce there is 7 high school students from Rising City, and also in the North balcony, Senator Bereuter has some friends from Bradshaw High School. Welcome to all of you. Thank you for visiting us here in the Legislature. We still have a question before us and that is the Chambers amendment as amended by Senator Kelly. Senator Chambers.

SENATOR CHAMBERS: Mr. Chairman, I move the adoption of the amendment as amended. I voted for Senator Kelly's amendment because something came through to me. People were not voting against Senator Kelly's amendment because they preferred mine. They preferred 50 years so I think 25 is less insane than 50. Notice, I said less insane. If we wanted to be rational, we would have taken 15. Allow me to be a bit facetious on occasions but I have to say a couple of things since I am with Senator Kelly on trying to get a record of what we are talking about. I don't think any issue that relates to a law should be considered too sensitive to be discussed. As a black man, if I am down here and I know there are issues that relate to people who are like me and I don't talk about it, I shouldn't be here. Nobody else is going to talk about it but you will notice that most of the issues that I bring up and that I discuss involve white people because most of the issues that come before this body involve white people. However, there are realities of life in this society. I am not going to forget them. I am not going to let the Legislature forget them, and in the interest of seeming like I am a good fellow and I am everybody's buddy and I don't make anybody nervous or embarrassed by talking about things, no way. If the kind of conversation about these things can upset people, how much more should the facts of life that we face be upsetting to us. So if merely hearing about it can upset some of you, you ought to understand how upset I really am and, in fact, if my reaction based on the life we live was proportioned to your reaction to hearing words, I should be advocating the violent overthrow of this country
